DIRECTIONS FOR COMPUTING YOUR TAX  
The above schedule may be used to compute the proportion of tax paid to the various levying bodies included under the Code number shown on your tax statement. Computation may be made by multiplying the valuation shown on the statement by the millage levy as shown opposite the name of each levying body in each particular Code. One mill represents 1/10th of a cent, so in order to express mills in terms of dollars the decimal point in the millage rate has to be moved 3 places to the left.

EXAMPLE: If your Code Number is 5-1 and the taxable value is \$2,000, your breakdown would be as follows:  
County ..... .0120x2000 equals | 24.00 || L.E.D. (Rural School) ..... | .0137x2000 equals | 27.40 |
| City of Baker ..... | .0215x2000 equals | 43.00 |
| School District 5-J ..... | .0228x2000 equals | 45.60 |
| TOTALS ..... | .0700x2000 equals | 140.00 |
| Less Property Tax Relief ..... | .0043x2000 equals | 8.60 |
| Net Millage and Tax ..... | .0657x2000 equals | 131.40 |

By Act of the 1965 Legislature \$13,544,681 has been distributed to Oregon counties from the Local Property Tax Relief Account, as relief for local property taxes. \$217,412.07 has been distributed to Baker County for

local property tax relief. Because of this tax relief, the millage is 4.3 mills less than it otherwise would be.
