DIRECTIONS FOR COMPUTING YOUR TAX-The above schedule may be used to compute the proportion of tax paid to the various levying bodies included under the Code number shown on your tax statement. Computation may be made by multiplying the valuation shown on the statement by the tax rate as shown opposite the name of each levying body in each particular Code. The tax rate represents dollars per thousand dollars assessed value.

EXAMPLE: If your Code Number is 5-1 and the taxable value is \$2,000, your breakdown would be as follows:

County .....	\$7.90 x 2 equals \$ 15.80
I. E. D. ....	16.20 x 2 equals \$ 32.40
City of Baker .....	31.44 x 2 equals \$ 62.88
School District No. 5-J .....	18.83 x 2 equals \$ 37.66
TOTAL .....	\$148.74

Net Tax Rate and Tax ..... \$74.37 x 2 equals \$148.74

By Act of the 1965 Legislature \$219,328.00 has been distributed from the Local Property Tax Relief Account as relief for local property taxes. Because of this tax relief, the tax rate is \$4.21 per thousand dollars of assessed value less than it otherwise would be.

This \$4.21 tax rate relief has been deducted from the gross Baker County tax rate of \$12.11, leaving a net County tax rate of \$7.90.
