NARRATIVE

The purpose of this survey and plat for John P. Gyllenberg and Janice E. Gyllenberg is to partition the above described land into three parcels. The parcels consist of vacated portions of J.M. Boyd's 2nd Addition. Said vacation is recorded in Book "G", Page 415, County Court Journal, recorded August 12, 1910, also filed as Baker County Deed 88 20 124. The J.M. Boyd's 2nd Addition plat is filed in Baker County Plat Book 3, Page 21, and accompanying Dedication is filed in Baker County Deed Book "S", Page 112, recorded May 21, 1890, then rededicated in Baker County Deed Book "S", Page 113, recorded September 8, 1890. Said Dedication states that J.M. Boyd's 2nd Addition is situated in the North Half of the Northwest quarter of Section 15, Township 9 South, Range 40 East, Willamette Meridian. It is assumed that the intent of the subdividers was to occupy the entire North half of the Northwest quarter of Section 15, even though the plat distances are short of a half mile by 30 feet in the East-West direction, and long of a quarter mile by 20 feet in the North-South direction. For the purpose of this Partition Plat, the lots and blocks of J.M. Boyd's 2nd Addition have been apportioned to fit in the said North half of the Northwest quarter. Baker County Deed 88 28 053 provided the property description for the subject property. Baker County Deed Book 164, Page 383, recorded May 31, 1955 provided the property description for the portion of land deeded to Oregon Trail Broadcasting, Inc. that is not a part of this partition, known hereon as Oregon Trail Broadcasting, Inc. parcel. Said Deed Book 164, Page 383, states that it's point of beginning is 485' East and 60' South of the Northwest corner of said Section 15. Using plat distances, this point of beginning for said Oregon Trail Broadcasting, Inc. parcel creates a one foot overlap on the West side of said parcel and a one foot gap on the East side of said parcel with said Deed 88 28 053. When the lots and blocks of J.M. Boyd's 2nd Addition are apportioned, the overlap and the gap are both increased to 5.32 feet. It is assumed that the writer of said Deed 88 28 053 intended to conform with said Deed Book 164, Page 383 which has seniority of deeds, therefore it is assumed that said Deed 88 28 053 is in error. Distances have been adjusted upon this plat to make the parcels fit, lacking any overlap or gap, while holding all record information from said Deed Book 164, Page 383.
