

NARRATIVE

This survey was performed for Farmers Home Administration for the purpose of identifying conservation easement boundaries on the Myron E. Miles property and preparing legal description of these lands.

The survey consisted of locating and/or reestablishing the original land survey corner monuments for the 4 Sections shown hereon, subdividing those sections into their aliquot parts and monumenting the Miles property corners.

An additional map of survey is filed showing in detail the boundaries of the conservation easement.

Additional GLO corner data is attached hereon as part of this narrative.
