

CERTIFIED RECORD OF LAND CORNER MONUMENTATION

History of original corner establishment:

Original survey by W. Barr in 1881, set basalt 12"x9"x6".
 In 1914 Ira Hoffman finds what he calls a "Blue stone",
 12"x8"x4" marked 1/4 in mound of stone.

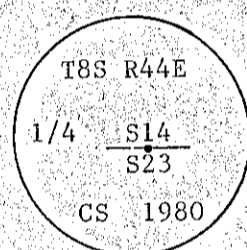

Description of corner evidence found:

I find a bluish stone 12"x8"x5" at an old down fence corner lying among other stones but with marks "1/4" plainly visible. Also found an unrecorded 1" iron pipe with 2½" brass cap, 7" high with stone 12"x9"x6" buried along North side. Some marks are visible on this stone but I do not believe them to be 1/4, said iron pipe bears N78°15'41"W, 48.90 feet from the Blue stone. Said iron pipe is stamped by the county surveyor as shown hereon. Said "Blue stone" is S25°06'22"W, 5831.91 feet from the section corner common to sections 11, 12, 13 and 14 as monumented in June 1986.

Description of monument and accessories I established to perpetuate the original location of this corner:

Set hub and tack beneath blue stone.
 I set no witness objects but another iron pipe by the County Surveyor with brass cap marked "1/4 $\frac{S 13}{S 24}$ CS 1980" bears
 N89°51'08"E, 5184.14 feet.

Witness by: W. Kleiman.
